You Need Not Buy Because You Look nor Keep Because You Buy Satisfaction

It's a good thing to be satisfied. Satisfaction breeds content. That has been the one aim of this store—to give to the people of Edmonton a general satisfaction. How we have succeeded in that respect is evidenced by our steadily increasing business.

We ask you to come and look at the new Spring Merchandise—complete in every department, and ask you to remember that you are under no obligation to buy, but if you find something that appeals to you—take it from us as our personal word—that it is the best. We invite the comparison of qualities and extend to you a hearty invitation to visit the Home of Quality and look around to your heart's content.

Come Today

Money Money Money FOR YOU! YOU!! YOU!!! in Coquitlam

Everybody is talking about the profits made by lot buyers in Coquitlam—Vancouver's Indian Sub-City—terminals of the Canadian Pacific Railway. A mechanic invests \$25 and makes \$250 in three days; a stoneographer invests \$50 and clears \$750 in one week; a business man pays \$400 down on two lots and resells at a profit of \$1,100 in two months—scores of similar cases could be cited. Coquitlam offers the small investor his Winnipeg, Edmonton, Vancouver chance of ten years ago. Coquitlam is the 1912 sensation, the big idea, the main chance, the opportunity extraordinary. Don't wait till Coquitlam prices have equalled those of other cities—get a lot there now. Fill in the attached coupon before you do anything else and mail it to us. We can offer you almost any kind of a sound investment in Coquitlam or other parts of B.C.

These who seize opportunities when they are wise but are the ones who get wealthy. Coquitlam is giving you your BIG chance; that is all she can do. You have to act yourself. Sign at mail this coupon today.

CERTAINIES CONCERNING COQUITLAM

COQUITLAM will have 30,000 people supported directly by the C.P.R. alone.
COQUITLAM has a hundred thousand dollar roundhouse in course of construction NOW.
COQUITLAM will have the largest lumber

mill in the world—cutting 600,000 feet of lumber in 24 hours.

COQUITLAM is the deep fresh-water port on the world's highway of traffic via the Panama Canal.

COQUITLAM will get cheap power at competitive rates from two big companies.

COQUITLAM will be the ocean terminus of the C.P.R. and hence competitive freight rates.

COQUITLAM is situated in the Vancouver metropolitan district, 17 miles from Vancouver. COQUITLAM will be the port of call for the world's largest vessels—it has a fine natural harbor.

COQUITLAM will have other railways besides the C.P.R. and hence competitive freight rates.

MASTERS BEGINS HIS ARGUMENTS

(Continued from Page 1)

and the law applicable to those facts this money was at the time of the going of this act within the province of Alberta. The evidence of S. H. Woods, former deputy attorney general, who had charged the matter for the government, shows clearly that the arrangement was that the money resulting from the sale of the bonds was to be placed on deposit in specified banks at Edmonton.

Edmonton the destination. The correspondence and other exhibits filed on the trial shows quite clearly that it was within the contemplation, not only of the government but of the bank itself and of the Railway company, that the money was to be placed on deposit in specified banks at Edmonton, which undoubtedly was, and was intended to be, the ultimate destination of the same. This money never went to the credit of the provincial treasurer or anyone else at the head office of the bank, or at any branch of the bank other than the Edmonton branch. The money itself did not go to the credit of the provincial treasurer in New York, but to the credit of the Edmonton branch of the Royal Bank. The account since its opening has been treated by the bank as a bank one which was current at the Edmonton branch, and not elsewhere. If the sale of the money had been held in Alberta, the mere fact that the other parties concerned in the situation reside outside of the province does not take away the jurisdiction of the legislature over the money.

Under the head of banking legislation, passed for the province in his factum takes up the question urged by the defendants in effect that the act of December 16, 1910, in relation to the provincial legislature is banking legislation, which by section 91 of the British North America Act is exclusively committed to federal jurisdiction and because it conflicts with certain sections of the bank act, cannot for the government asserted that this is not banking legislation at all. The statute in question deals with civil rights between the province and the railway company, not with banking or banking.

"On the admitted facts the statute of 1910 deals only with property and civil rights within the province. It was a term of the Guarantee Act that the purchase price of the bonds in question should be paid directly by the purchaser into a bank or banks approved of by the Lieutenant Governor in Council to the credit of a special account in the name of the treasurer of the province or such other credit as the Lieutenant Governor in Council might direct.

Province Asked to Guarantee. "The province was asked to guarantee the bonds. This was done on the terms that as a security to protect the province, it should receive in the name of the treasurer the proceeds of the bonds and which should be deposited in a bank or banks nominated by the government. The Railway company never for an instant acquired dominion over the proceeds of the bonds, neither railway nor the construction company was ever able to draw a cheque against a dollar of the funds in question."

VERMILION AVENUE OWNERS OBJECT

Some little dissimulation is being expressed by the residents of Vermilion avenue because of the proposed removal of the street railway line from Vermilion to Nelson avenue. A number of the residents declare they will enter a strong protest with the commissioners. The strongest plea against the removal of the Vermilion avenue line is that it will cause a depreciation in the value of property on that street.

The department state that their reasons for choosing Nelson avenue for the through line to Twenty-fourth street are: That Nelson avenue will touch the city market; it is a through street, which if it were removed would be necessary to make a detour of the cemetery, and reach Twenty-fourth street by the route now chosen. Again, Vermilion avenue will have but one block of residences north of the car line, and six blocks north of the car line from which the fares will be drawn; by placing the line on Nelson avenue there will be an equal number of blocks from which to draw their fares; that is, Nelson avenue is more central when one takes into account the fact that the plan for future extension will be for the laying of a car line along Muskoka avenue, which is a continuation of the line from Twenty-fourth street, and the Nelson avenue line will have seven blocks between the two lines, and so give each line three or four blocks on each side from which to draw their fares.

400 Street Cars Burned.

Toronto, March 25.—Street Railway officials now estimate the number of cars burned in last night's fire at the King street car barn at between 300 and 400. Of these 150 were in regular commission every day. It is expected the service will be greatly crippled for some time.

CHICAGO PACKERS ARE "NOT GUILTY"

Chicago, Ill., Mar. 26.—"Not guilty" was the verdict which the jury returned today in the trial of ten Chicago packers accused by the government of violation of the criminal sections of the Sherman Anti-Trust Act. The verdict was returned before United States District Judge Carpenter, after the jury had deliberated more than 19 hours.

THE COUNCIL HAS A LIVELY SESSION

(Continued from Page One.)

Another utility proposition was considered in a letter read from H. A. Boman, stating that he and his associates believed that there was sufficient natural gas and obtainable within a reasonable distance of the city to supply all the gas required by the city, and they would undertake to secure the gas and convey it to the city, on condition that the city should guarantee the supply of the natural gas for use during a period of years, on receiving such assurance they would proceed to develop the proposition, and they promised to prosecute the project continuously during working days while the weather was suitable and to complete the undertaking within three years.

Alderman East said that as the company had no gas to sell he did not see how they could deal with the proposition.

Alderman Gowan—"We don't want to discourage anybody. They have been boring at McEwain for years. Alderman Clarke said that a definite proposition came before the council to consider it. There was nothing to consider it. There was nothing to consider it. There was nothing to consider it."

The motion of Alderman Clarke that the communication be read was carried.

City Could Purchase Rights
Mr. Boman, at a later stage, asked permission to explain the position to the council. He said he was not asking for a franchise, but wanted to know whether the council, in the event of gas being found within a reasonable distance of the city, would be prepared to treat with them for the purchase of it or not.

Alderman East said wells had been drilled in the city and at McEwain, but no gas had been obtained. It would be against the city being tied up to any proposition.

Mr. Boman—"We want some definite assurance that the city would be prepared to deal with us for the purchase of the gas in the event of its being found in the district and that the city can make a better bargain than at any other time. I think therefore that the matter should be taken up by the industrial committee."

The council agreed that the industrial committee should meet with the promoters of the proposition and hear further details of their proposal. Mr. Boman said he understood the city proposed to manufacture gas at the rate of the consuming of 80 cubic feet per 1000 cubic feet. If that undertaking was approved, it would be able to supply gas at 25 cents to the domestic consumer and 25 cents to the manufacturing consumer using gas for power.

Publicity Agent for City
The council decided to give the board of trade a grant this year of \$1000 on the understanding that the board should carry on the line now being followed. This decision was given on the recommendation of the industrial committee, who also recommended the appointment of an industrial agent to secure industries for the city. It being agreed that the board of trade should co-operate with the agent.

Alderman Lands said that this report was satisfactory to the majority of the directors of the board of trade. Alderman Clarke approved the decision, expressing the opinion that the payment of \$1000 for this year was a change of view of settling publicity question satisfactorily. It being provided that the publicity agent or agent, city deal with that part of the work which was assigned to him.

Exhibition Board Status
The council decided to give the board of trade a grant this year of \$1000 on the understanding that the board should carry on the line now being followed. This decision was given on the recommendation of the industrial committee, who also recommended the appointment of an industrial agent to secure industries for the city. It being agreed that the board of trade should co-operate with the agent.

The council decided to give the board of trade a grant this year of \$1000 on the understanding that the board should carry on the line now being followed. This decision was given on the recommendation of the industrial committee, who also recommended the appointment of an industrial agent to secure industries for the city. It being agreed that the board of trade should co-operate with the agent.

The council decided to give the board of trade a grant this year of \$1000 on the understanding that the board should carry on the line now being followed. This decision was given on the recommendation of the industrial committee, who also recommended the appointment of an industrial agent to secure industries for the city. It being agreed that the board of trade should co-operate with the agent.

The motion to receive the report carried.

Medical Officer's Salary
The salary of Dr. Whitely, the health officer, was again discussed. Dr. Whitely wrote stating that he was not satisfied with the advance of \$100 per year granted at the last meeting and asking to be placed on the same footing as the city solicitor, who receives \$1000 per year. The doctor said the council and conditions with an excess of modesty or that he was underestimating.

Alderman Gowan said he was informed by Dr. Whitely that he would be satisfied with \$1250.

Alderman Clarke was of opinion that the new council was scarcely in a position to vote an increase, but he was sure if the men were qualified they would be paid what their services were worth. On the other hand, if a man was not willing to give to the council all the services that they could do was to take his resignation.

In the opinion of Alderman Clarke Dr. Whitely was worth the full amount of the money he asked, and Alderman Clarke was of opinion that in favor of the doctor getting \$1250. He thought the motion was worth it. It was resolved that the doctor's letter be filed.

Meeting Accommodated
Mr. B. Williams attended the meeting and explained to the council on behalf of several clients a proposition to erect ten to temporary sleeping quarters. He understood that the sleeping quarters would be filled up with adequate sanitary arrangements, and that the furniture. The proposition was largely in the hands of C. C. Macdonald, ex-alderman of the city council.

Alderman May favored the council establishing temporary sleeping accommodation as a means of solving the problem.

Mayor Armstrong agreed that something should be done right away, and it was agreed that a joint committee of the public committee and the industrial committee, with members of the legislative committee should go to the matter.

Leave of the Granite rink lot offered for \$2500 per acre was read. The rink had not been a financial success. On suggestion of Alderman Clarke, the commissioners were asked to report on the matter, the idea being that the building might be used this site for a hotel or other sleeping accommodation.

Industrial Sites
The city commissioners asked the council to consider the proposition of the sites for industrial purposes. The council decided to consider the proposition of the sites for industrial purposes.

The commissioners stated that it was their duty to report on the matter, the idea being that the building might be used this site for a hotel or other sleeping accommodation.

City Extension
Citizens of North Edmonton petitioned for their district to be taken into the city with a proviso that the city extend electric light, sewers and other facilities.

Mr. Henry, former member of the council of North Edmonton, said some of the public for the extension of the district, and the people did not want to pay for the extension of the district, and the people did not want to pay for the extension of the district.

Early Closing
A petition was received asking the council to pass a by-law providing for the closing of barbershops and other places of amusement on certain days, except Sundays, and days proclaimed by the council.

The council decided to consider the proposition of the sites for industrial purposes. The council decided to consider the proposition of the sites for industrial purposes.

BECOMES MORE ACUTE**The Farmers of Saskatchewan Have
Insistence Amount of Grain Yet to
Be Threshed and Also Ready to Be
Marketed.Regina, March 26.—The grain sit-
uation is becoming more acute than
ever. In Saskatchewan it is stated
that there are between five and eight
million bushels of rough wheat still
to be marketed, 25,000,000 bushels of
dry wheat and 20,000,000 bushels es-
timated still unthreshed.In addition, the elevators at Fort
William and Port Arthur are full and
an embargo is threatened by the rail-
ways at Duluth, which it is reported
has a capacity for only 3,000,000
bushels left. Today, a consultation
took place between the government
and the officials of the Saskatchewan
Co-operative Elevator company, and
it has been decided to attempt to se-
cure some relief by means of the
Chicago terminals.With this end in view, A. F. Man-
ley, deputy minister of agriculture,
and C. L. Dunsmuir, manager for the
elevator company, left tonight for
Winnipeg to consult the railway of-
ficials there, and will proceed to Chi-
cago to enquire as to the exact ca-
pacity and feasibility of its utiliza-
tion for Saskatchewan wheat, should
it be possible to obtain a reasonable
rate from the railway companies.**TAFT PEOPLE CLAIM
VICTORY IN NEW YORK**Cables also Made That at Least 81 of
the 90 Delegates Will Be in Favor of
the Present President.New York, March 26.—Today's
state-wide Republican primaries for
choice of delegates to the Republican
national convention at Chicago re-
sulted in the election of organization
candidates in practically every dis-
trict where there was a contest, ac-
cording to unofficial returns, fairly
complete in many instances, at hand
at a late hour tonight.Claims that at least 81 of the 90
delegates will be for Taft and more
than seven for Roosevelt were
made by State Chairman William
Dawson, Jr., and John W. Hutchinson,
director of the Eastern branch of the
national Taft club. Chairman
Charles H. Duell, of the Roosevelt
committee, declared that the pri-
maries were characterized by a com-
plete breakdown of the election ma-
chinery and had been a "farce." He
asserted that an effort would be made
by the Roosevelt committee to secure
a real primary in this city that will
be a full expression of Republican
sympathy.Revised returns from all of the 15
congressional districts in New York
county, with returns complete from
21 election districts out of the 24
election districts, gave the following
totals: Organization, 24,624; op-
position, 14,747. The number of en-
rolled voters is approximately 96,000.**INJUNCTION STILL TIES
UP THE WORK OF G.T.P.**Allegation Made That the Engineers
of the Grand Trunk Pacific Are In-
creasing Right of Way of the Can-
adian Northern.In connection with the story that
the Bulletin published exclusively
several weeks ago of alleged interfer-
ence by the Grand Trunk Pacific with
the C. N. right of way in the West
about the following: The Grand
Trunk was received last night from
an authority:"Sensational charges of interfer-
ence with the right of way of the Can-
adian Northern, railway along the
Fraser river at the west of the Yel-
lowhead Pass by Grand Trunk Pacific
railway contractors have resulted in
justice Morrison granting an interim
injunction restraining the latter from
carrying on work on the disputed
ground. Argument will be heard here
on Friday and there will be an in-
creasing array of counsel on both sides.Engineer Swan of the Canadian
Northern alleges that the grading op-
erations now being carried on by the
Grand Trunk Pacific railway, along
the Fraser river, five miles below
Moonhead lake, were being per-
formed with the object of blocking the
right-of-way of the Canadian North-
ern. At the disputed point the route
of the latter line is located along a
bench about fifty feet above the line
of the other road. Mr. Swan alleges
that by so doing is creating a danger
to the right-of-way of the Canadian
Northern. The right-of-way of the
Mackenzie-National line will be
undisturbed and made unsafe.

**GRANTED NEW BRAIN
INTO A MAN'S HEAD.**Baltimore, M.D., Mar. 26.—
Extracting part of the brain of
an ill man and replacing it
with that taken from a still-
born infant was the operation
recently performed at Johns
Hopkins Hospital by Dr.
Harvey Cushing. It is said to
be the first operation of its
kind ever performed, and
thought it will be successful.
for the man is still living.
The patient is a Mr. Hunter,
real estate agent in Cincinnati,
Ohio, 41 years of age. Com-
ing to the hospital on Novem-
ber 21st, he was trepanned for
several months before the
operation was attempted. He
had suffered for some time
from a peculiar affection of
the brain, which caused him
to be continually drowsy.

ASQUITH CONFESSES INABILITY TO GET DISPUTANTS TOGETHER

Termination of Coal War Seems as Far Away as Ever.

MINE OWNERS SAY THEY DECIDED TO CHUCK IT

Declare Miners Meet All Their Concessions With Some New Demands.

London, Mar. 26.—In a short speech in the House of Commons (his afternoon), Premier Asquith confessed the government's failure to terminate the coal strike. "Following," he said, "we have done our best with perfect thoroughness and impartiality, and it is with profound disappointment that I have to confess to the House that all our labors have been unavailing."

The premier made a final appeal to discontinue it at the present moment of the eleventh hour the parties cannot come to a reasonable arrangement of matters of relatively small proportions they have a very serious account to render to the country. The government has done all it can.

The coal mine owners of the South Wales coal district left the council chamber at the forenoon office at 10 o'clock this afternoon where conference with the cabinet had been held, showing every evidence of being disgusted.

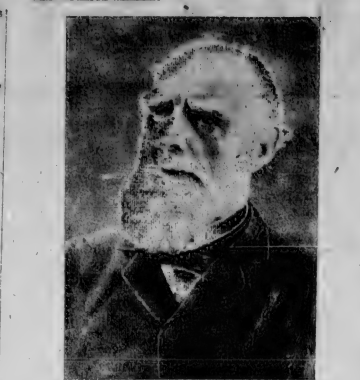

"We have backed it," said one of them, "because the miners constantly are meeting our concessions with new demands."

Premier Asquith, however, still clings to the theory of the optimism. "It is not beyond the range of possibility an arrangement set may be made outside of the minimum," he said, "the House of Commons this afternoon. At the same time Mr. Asquith announced his determination to push the bill through all its stages. King George today cancelled the arrangements for his visit to Liverpool to attend the Grand National Steeplechase, on Friday, March 29th. Telegraphing to Lord Derby, with whom he had intended to stay, King George said: "The continuance of the disastrous coal strike makes it impossible for me to make any plans to leave London."

Will Organize for Relief. London, Mar. 26.—Unless the national miners strike is settled within two or three days and the million idle workers return to the pits, the leaders will go back to their respective districts in order to organize maintenance and relief funds for distressed families and ask other organizations to do the same.

This is the substance of a statement of one of the men who is foremost in the negotiations. He insisted that the miners had no intention of further reducing their demands. "On the other hand there is some indication that the owners have given up on one point. They have expressed their willingness to grant specified minimum rates if exceptions be made in the amount of coal or rent is given in part payment."

Thousands upon thousands of people in every district of the country are relying only on the meagre allowance of soup and bread distributed by the

LOUIS STRATHCONA, who is ill in London. Canadian Associated Press.

London, Mar. 26.—Lord Strathcona remains very weak though there is no immediate cause for apprehension.

charitable societies and industrialists. Fortunately the weather is mild, but still reports come to hand of pallid conditions prevailing in the midlands and the north. All the iron works and furnace chimneys, however, have been closed, adding 25,000 to the number of unemployed and today makes more than 500,000 without work to quit work at the end of this week.

London, Mar. 26.—The Good ship "Settlement" is still hovering heavily on the bar and the almoner (Lazarar) appeared as to whether she will ever be able to enter the harbor. All day yesterday the ministers pleaded alternately with the mine owners and miners without being able to move either party from their decision. The almoner will attend their efforts to quit work at the end of this week.

The position of the government is that it cannot out of the two shillings into the bill without creating a precedent, and the bill is quoted by every trade union in the country as justification that their wages should be paid at their own discretion by parliament. The almoner is divided on the subject, but the majority, supported by a majority of the Liberals and all the Tories, are in favor of the bill.

Miners Are Firm. The miners are equally firm in refusing to work with the shillings and shillings for the mine owners.

They say they have already agreed on the major question of the miners' wages and contend that the owners should give way in their return.

The mine owners reply that while there are millions upon millions of shillings and shillings for the mine owners, they refuse, therefore, to yield to any authority but that of the act of parliament, which the ministers for the reason

FORD ARGUES FOR THE CONSTRUCTION COMPANY

Further Arguments Presented to the Defendants and Applicants in the Waterways Appeal Case Before the Supreme Court This Morning.

In an almost bewildering mass of legal points raised, the Supreme court heard arguments yesterday in the appeal of the defendants in the case of the Kings and the provincial treasurer against the Royal Bank of Canada, the Alberta and Great Waterways Railway company and Canada West Construction company. From the plaintiff of Justice Mack, rendered last November, finding for the plaintiff, Frank Lord, K.C., for the defendants, held the hour all the forenoon, directing the argument to phases of the case covered in it. It then addressed to the court. Monday.

Lord, Ford argued at length and cited numerous authorities in support of the general contention of the defendants that the provincial legislature cannot enact laws in conflict, as he claimed, with the British North America act and the Dominion Bank act. This he said, was done when, on December 16, 1910, the provincial government re-enacted the contracts previously entered into with the Great Waterways Railway company for the construction of 230 miles of railway from Edmonton north to Fort McMurray, after the bonds had been sold to a London firm and \$5,000,000 deposited in the Royal bank of this city to carry on the work of construction.

Counsel for the defense drew a distinction between the bank's action in issuing and circulating the letter, he asserted, constituting the act of the legislature in re-enacting the contract with the railway company and in demanding that the money deposited with the Royal bank be turned over to the provincial treasurer. This feature of the case was discussed quite freely by Chief Justice Harvey and three Justice sitting with him.

Justice Harvey, who presided, intimated that the court could find in favor of part of the defendants and not all of them, although by no means indicating that this was his view of the case as it stands at present.

Construction Company's Counsel. Mr. Ford contended in behalf of the defendants that the statute, being chapter 92 of the statutes of 1910, second session, upon which the plaintiff's claim is based, is ultra vires of the province for the following reasons:

The statute attempts to confiscate private property and to deprive the property of the increase of the revenue of the province and is a means of raising revenue other than by direct taxation, which means of raising revenue the province is forbidden by section 92 of the British North America act.

The statute is, in the opinion of the court, in violation of the provisions of section 16 of section 92 of the British North America act, which prohibits the province from expropriating private property for the banking and incorporation of banks and the issue of paper money.

The act is in direct conflict with the provisions of the Bank Act, chapter 29 of the revised statutes of Canada.

The statute affects or purports to affect property and civil rights not in the province and there may come within the provisions of clause 23 of the British North America act, which prohibits the province from expropriating private property for the banking and incorporation of banks and the issue of paper money.

The defendant's contention is that there cannot be found in any of the clauses of section 92 of the British North America act any authority to the province to confiscate private property and to apply such property to the revenue of the province.

The statute in question tends to make the property owned by the Canada West Construction Company, whether such property is a debt due by the three banks—Royal Bank, Dominion Bank and the Union Bank—or whether it is a debt due to the company by the three banks, a part of the general revenue fund of the province.

There is no doubt that the clause of section 92 of the British North America act is clear, counsel for the defendants argue, that the province has not the power so to increase its revenue.

It was pointed out that the only clause of section 92 of the British North America act which applies to the raising of revenue are clause 23 of the British North America act, which prohibits the province from expropriating private property for the banking and incorporation of banks and the issue of paper money.

There is no doubt that the clause of section 92 of the British North America act is clear, counsel for the defendants argue, that the province has not the power so to increase its revenue.

It was pointed out that the only clause of section 92 of the British North America act which applies to the raising of revenue are clause 23 of the British North America act, which prohibits the province from expropriating private property for the banking and incorporation of banks and the issue of paper money.

There is no doubt that the clause of section 92 of the British North America act is clear, counsel for the defendants argue, that the province has not the power so to increase its revenue.

GOOD GIN! How it can be Recognized.

Canadian Red Cross Gin is produced by the transformation of grain into gin, which, after fermentation, is combined with Juniper Berries and when distilled becomes the famous

"RED CROSS" GIN

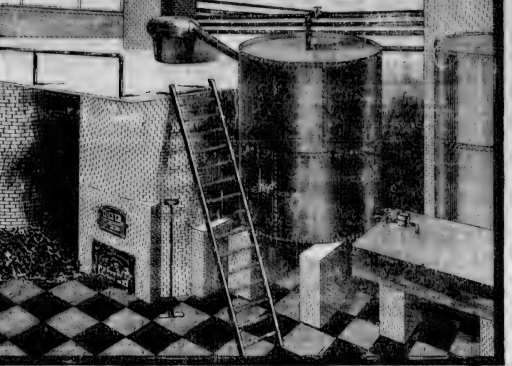

Red Cross Gin is submitted to the rigorous inspection of the excise officers, even in cases, where it is present at all the various stages of its production, following the various operations of distillation, the refining into alcohol, the aging in bonded warehouses, and "Red Cross" Gin is distributed in its officially sealed bottles. There is no other local product in the world so carefully and constantly inspected. The public therefore possesses the absolute guarantee that any sample of "Red Cross" Gin, wherever imported, cannot be of the slightest quality, as they are subjected to no official inspection before exportation, and are not treated as to quality, purity and healthiness on their importation here.

How can the Consumer hesitate between Canadian Gin and imported Gin?

We shall leave the public judge.

BOVIN, WILSON & Co. Distributors, MONTREAL.

Seam-in-front stockings would seem absurd! Then why any seam?

You have kept on wearing stockings with a seam up the back—shapeless, uncomfortable things! because you probably didn't realize the perfection reached by

Pen-Angle Seamless Full-Fashioned Hosiery. These are hose without the sign of a seam—look for the sign of the trademark. As they are being knit they are shaped loosely to the curves of the foot and leg. They fit—they wear better—and the utter absence of any seam at all makes them over so much more comfortable. No difference in cost—but much in quality, in economy and in comfort when you buy

CALCULATES CITY IN 1914 WILL HAVE 75,000

This is the population on which the city council has based its estimate of the water supply for the year 1914.

A. McLean, the superintendent of the city waterworks, has been making calculations as to the probable increase in the population of the city in 1914, on which to calculate the water supply. He has received a number of reliable figures from various sources, and has calculated that the population of the city in 1914 will be 75,000.

APPOINTED BRODIE GAS ENGINEER AT \$3,000

Commissioner Harris has appointed Brodie as gas engineer at a salary of \$3,000 per year.

The city council has appointed Brodie as gas engineer at a salary of \$3,000 per year. The city council has appointed Brodie as gas engineer at a salary of \$3,000 per year.

REV. DR. McQUEEN TO BE NEXT MODERATOR GENERAL ASSEMBLY

His Nomination for Position by Many Presbyteries Indicates His Election.

WILL PROBABLY RECEIVE ACCLAMATION ELECTION

Toronto Presbytery Nominates Him for Highest Office in Presbyterian Church.

Bulletin Special.
Winning, Mar. 26—Rev. Dr. G. McQueen, minister of First Presbyterian church, Edmonton, who has been in Toronto attending meetings of the Transatlantic home mission committee, has been nominated for the position of moderator of the general assembly by the Toronto presbytery, the Edmonton presbytery and numerous others. It is probable that he will be elected by acclamation.

FINEST COUNTRY CLUB GROUNDS IN DOMINION

This is a tribute to the Country Club grounds in the city of Edmonton.

The directors of the Country Club have offered the city a piece of land for a golf course. The city council has accepted the offer.

CLUBSIDE

Smart West End Subdivision

This property rings true to every test that the investor can apply. **Desirability** and **Accessibility** are the two first considerations. **Price** and **Terms** are the second two tests.

Desirability

It would be well nigh impossible to find anywhere around the city a more pretty and in every way desirable property than CLUBSIDE. It is in part most beautifully treed with extra large poplar and pine trees, especially along the lovely ravines that traverse the property. These ravines are not so deep nor so steep as the Great Ravine, along which fine homes are now being built, but they slope much more gradually and the property is so laid out that the beauty spots are all taken advantage of in favor of the individual investor.

CLUBSIDE adjoins the property controlled by the Country Club, and from that point of view alone it is well worth attention. By the Country Club in any large city you can name, you find the prices high as the city develops. Also you find the modern conveniences of life installed, such as street car, water, electric light, etc. History will be repeated here. Buy before the splendid advance of these conveniences makes prices correspondingly high.

Accessibility

Right now you will not find better roads from the city to any property than extend along the boundary of CLUBSIDE. In the near future the new Automobile Road that the Country Club are putting in, and which runs along part of the Eastern boundary of CLUBSIDE, will make this one of the most accessible suburbs available for Permanent Homes.

Price

The prices of these lots are almost at the level of acreage value in this vicinity. Several lots running over or just under one acre in extent will be sold at only \$750. Others of less size will range down to \$200.

Terms

The terms of sale will be one-third cash balance over two years.

Country Club

According to present indications, the Country Club will this year commence the expenditure of \$25,000 on the making of a first-class Automobile Road right to their grounds. This alone will make CLUBSIDE one of the best known and best patronized suburbs.

As everyone knows, this Club will have assembled on its grounds most of the pastimes of the wealthy, such as Golf, Polo, Tennis, Cricket, etc. It is a foregone conclusion that many of the wealthy will elect to make their Permanent Homes also at CLUBSIDE. This wealthy can also afford to pay large prices for the sites of their permanent homes. CLUBSIDE is just the kind of property that the wealthy would appreciate, and therefore would pay big figures for. Buy now and sell to the wealthy at the bigger figure.

NOTICE

H.Y. Burnett & Co. respectfully draw the attention of the public to their new location and to the fact that they will open with the sale of CLUBSIDE; a property which can conscientiously be recommended at present figures to any investor, either as a site for a permanent home or as a good investment or speculation.
